

The MLA is pleased to announce that, as of mid-January, Bryan Lorengo has agreed to join the MLA staff. Bryan has been on our radar screen since Jason Todhunter left the MLA in mid-2011 for an opportunity with Tricon Timber.

Most MLA members will remember Bryan as an instructor in past First-aid/Wildfire training workshops that the MLA hosts each spring.

Bryan grew up in a logging family in Anaconda... received a degree in elementary education from UM-Western... and has extensive experience in forest-related fields since graduation.

Bryan impressed the MLA's interview committee with his experience, his knowledge and his passion for our profession. He will be working from a home base in Anaconda... and he will be covering a large working circle on both sides of the divide.

Bryan can be contacted via email at bryan@logging.org and his cell phone 406-253-3807.
